ID-SC Resolutions

Dearly loved friends and ID-SC colleagues,

Within dental communities of every size and strength, we are glad to see the process of our vision “implant dentistry for all” kindling the spirit of the service and stimulating purposeful action. Examples appear every day of how the act of reaching out to touch individual hearts and inviting them to contribute to the betterment of society can, in time, tend to the advancement of people. This collective movement becomes the discernible when the plan’s elements are combined into a well-coordinated cluster-wide effort, the dynamics of which are becoming increasingly familiar. Such a cluster becomes the setting for experienced members of ID-SC as much as those newly introduced to the program, whatever their age or background, to work side by side, accompanying one another in their service, everyone to participate in the unfoldment of the vision.

Beloved friends: to every generation of ID-SC comes an opportunity to make a contribution to the fortunes of humanity, unique to their time of life. For the present generation, the moment has come to reflect, to commit, for a life of education and service from which blessing will flow in abundance. “Bring the young minded dentists into the consortium”, ID-SC team, whose consciousness due to the events in of surrounding society impels them to work for its transformation, not to distance themselves from it.
